ABOUT TYPE 1 DIABETES (T1D)

Type 1 diabetes (T1D) is an autoimmune disease in which a person's pancreas stops producing insulin, a hormone people need to get energy from food. T1D strikes both children and adults, and its onset has nothing to do with diet or lifestyle. There is currently nothing you can do to prevent it, and there is no cure.

ABOUT JDRF PROMISE BALL REIMAGINED

JDRF Arizona Promise Ball is one of the area's premier charity events and each year the annual event brings people together to celebrate the tenacity and courage displayed by the T1D community, while raising critical funds for T1D research. Although we cannot be together in person this year, we can still come together, virtually, as a community, to show the world that when faced with challenges, we will remain unstoppable in our fight to find a cure. This year Arizona and New Mexico are joining forces #bettertogether and we are expecting hundreds of guests, including prominent philanthropists and business and community leaders, to help JDRF fund research to cure, treat, and prevent T1D.

SUPPORT RESEARCH THAT MAKES AN IMPACT

Our mission to provide life-changing therapies to the T1D community is being realized globally. In 2018, JDRF supporters raised \$108 million for T1D research by attending a Gala, fundraising for One Walk, or making a cash donation.
