Whether you are a family dealing with a new diagnosis, or an adult living with T1D for 50 years, you are assured to find value in this unique opportunity:

• Learn about the latest in diabetes care and treatment
• Hear about research advances and meet the experts
• Network with other families and medical suppliers
• Participate in discussions with peers and healthcare providers

Together, we can improve lives along the way to a cure for type 1 diabetes (T1D)

**Living with Diabetes: A Family Day of Inspiration, Hope, and Education**

JDRF is the leading global organization focused on type 1 diabetes (T1D) research. The goal of JDRF is to improve the lives of every person affected by T1D through accelerating progress on the most promising opportunities for curing, better treating, and preventing this disease. Since our founding in 1970, JDRF has awarded more than $2 billion to T1D research which is driving tremendous scientific progress and technological advancements.

As a participant in this year’s JDRF TypeOneNation Summit, you will hear from renowned scientists and medical experts on leading-edge research updates and the latest treatment advances. You will be able to visit with our industry partners to see the most up-to-date technology and tools dedicated to helping people live better, healthier lives with diabetes.

While the parents/caregivers are attending the main program, JDRF Kids Camp will host children with T1D ages 5-12 for a fun-filled day while learning the importance of diabetes self-management under the guidance and watchful eye of our trained JDRF Kids Camp medical personnel and volunteers. Once again, a sibling or friend is invited to attend as well.

JDRF Teen Central is back again – bigger, brighter, and more fun than ever! This cool ‘hang out’ for teens with T1D ages 13-19 will offer opportunities to learn the latest in diabetes-related technology, share stories and experiences with peers, ask questions and trade tips on managing T1D through the teenage years. JDRF Teen Central is directed by medical personnel and trained volunteers. Once again, a sibling or friend is invited to attend.

The JDRF Type One Nation Summit is the most complete, comprehensive type 1 diabetes education program in the country. Join us, our summit planning committee, and our community partners on Saturday, May 14th, for a day of Inspiration, Hope, and Education. It takes a community to turn Type One into Type None!

Regards,

Colleen Buggs-Saxton, MD, PhD
Conference Co-Chair
Assistant Professor of Pediatrics and Physiology Section of Pediatric Endocrinology Wayne State University School of Medicine Children’s Hospital of Michigan

Jennifer Wyckoff, MD

JDRF KIDS CAMP 8:30am-2:00pm
Developed for kids ages 5-12 with type 1 diabetes, the JDRF Kids Camp will offer fun activities and educational programming designed to provide an enriching experience in diabetes self-management. A supervised environment led by a certified diabetes educator with trained volunteers and health care professionals, the JDRF Kids Camp allows your child to interact with kids experiencing similar life challenges. We have an exciting array of activities planned throughout the day: arts & crafts, fun fitness workout, a visit from Brandon Denson, TID athlete and Dexcom Warrior, special drop-in guests, and our very own Magic Man! 
Sponsored by Beaumont Children’s

JDRF TEEN CENTRAL 8:30am-2:00pm
Open to all teens with T1D, ages 13-19! JDRF Teen Central is the coolest place to be as we spend the day enjoying a fun, engaging camp-like experience in the teen hang-out lounge with our awesome agenda. The day includes a peer-to-peer support system, sharing experiences, empathizing with emotional experiences, and setting good examples – all through positive diabetes self-management. We have guest speakers and teen specific panel discussions, Minute-to-Win-It Games, a photo booth, Karaoke, and special activities including Gamify with Nate Aschenbach, MSU researcher Bree Holz, and Hacking Diabetes led by Joyce Lee, MD, MPH; University of Michigan. Onsite medical supervision is led by Melina Reid, RN, CDE; Children’s Hospital of Michigan.

JDRF – GET INVOLVED!
Find out more about how you and your family can become involved with JDRF in 2016. Stop by our display table to gather information about fundraising programs, our extensive patient education and support activities, and JDRF funded research.

LODGING
A block of rooms is being held at the Detroit Metro Airport Marriott, 30559 Flynn Drive, Romulus, Michigan at a reduced rate of $92/night for a double or king. If you require lodging, please make your reservation on or before Friday, May 1, 2016. Reservations can be made by calling the Marriott at 1-800-228-9290. Mention you are with JDRF to receive the reduced rate.

Note: JDRF cannot guarantee room availability after the reservation deadline listed above.

REGISTRATION
Registration is available online only and advance registration is required. Please register on-line at www.michiganeast.jdrf.org. Unfortunately, we are unable to accept phone, mail or fax registrations. Every person attending the Summit, JDRF Kids Camp, or JDRF Teen Central, must be listed on the registration form. Those not listed may be denied access to the Summit due to space constraints.

Note: Due to space constraints, seating will be available on a first come, first served basis. Members of the medical and scientific community are welcome to attend.

Questions regarding this conference should be directed to 517-899-2251 or email: dpentescu@jdrf.org.

Registration deadline: May 9, 2016

Where: Wayne County Community College District-Western Campus 9555 Haggerty Road, Belleville, Michigan (Located just north of the Haggerty Road/1-94 intersection)

When: Saturday, May 14, 2016, 8:30am-2:00pm (Check in: 7:30am-8:15am)

Note: A continental breakfast and boxed lunch will be available for registrants

Who: Anyone with diabetes requiring insulin, or involved in the care of someone with diabetes should attend. Medical professionals are also welcome.

Cost: Free-of-charge

Pre-registration is required. Seating will be available on a first come, first served basis.

REGISTER ON-LINE ONLY. Go to michiganeast.jdrf.org
To Pump, or Not to Pump - That is the Question: An introductory discussion about all insulin pumps
Michael R. Brennan, DO; Beaumont Endocrine Center

“Advanced” Pumping for Dummies: Insulin Pumps for the Advanced Pumper
Carla M. Ferrise, FNP-BC and Lowell Schmelz, MD, FACE; Associated Endocrinologists P.C.

Continuous Glucose Monitor: The Ups and Downs
Michael A. Wood, MD; University of Michigan Health System
