Outreach Resources

Helpful Diabetes Websites

- **JDRF Website**—www.jdrf.org
  JDRF’s website includes the latest news and scientific breakthroughs in type 1 diabetes (T1D) research; online forums and social media links; volunteering and advocacy opportunities with JDRF; local chapter information; and JDRF publications and T1D factsheets.

- **JDRF School Advisory Toolkit Request**—www.jdrf.org/satrequest
  JDRF’s *School Advisory Toolkit for Families* offers collaborative ways for educators and parents to ensure that the children with T1D enjoy the best possible school experience. The toolkit includes basic information on T1D; education and training information for school staff; the legal rights of a child with T1D; T1D in the daycare and college years.

- **Juvenation**—www.juvenation.org
  Juvenation is JDRF’s social networking site for people living with T1D, their families, and anyone with a connection to T1D, where people share information, find support, and discuss the specific needs and challenges of living with T1D.

- **American Association of Diabetes Educators (AADE)**—www.diabeteseducator.org
  General diabetes information from a multidisciplinary association of healthcare professionals. Users can search to find a diabetes educator, program, and other diabetes resources.

- **American Association of Clinical Endocrinologists (AACE)**—www.aace.com
  Professional community of physicians specializing in endocrinology, diabetes, and metabolism committed to enhancing the practice of clinical endocrinology.

- **Children with Diabetes**—www.childrenwithdiabetes.com
  Organization that promotes understanding of the care and treatment of diabetes, especially in children.

- **Insulindependence**—www.insulindependence.org
  Insulindependence inspires people with diabetes to set personal fitness goals, educates them on adaptive management strategies through hands-on experience, and equips them to explore their individual capacities.

- **Insulin Pumpers**—www.insulin-pumpers.org
  Provides information and support for adults and children with diabetes and their families interested in insulin pump therapy.

- **National Diabetes Education Program (NDEP)**—http://ndep.nih.gov/
  Program sponsored by the U.S. Department of Health and Human Services’ National Institutes of Health and the Centers for Disease Control and Prevention has more than 200 partners working together to reduce complications associated with diabetes by changing the way diabetes is treated.

- **National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK)**—www2.niddk.nih.gov
  A division of the National Institutes of Health; site includes lots of facts and information on T1D.
