

**PROMOTE  
YOUR HEALTH**  
— *and* —  
**JDRF**  
*in one easy step*

We've just made it easier for JDRF supporters to stay happy and healthy this flu season and support type 1 diabetes (T1D) research at the same time.

Just stop in your favorite Walgreens or Duane Reade for your flu shot\* **between Sept. 1 and Oct. 31, 2013**, and we'll donate \$1 (up to \$100,000) to JDRF for every flu shot its supporters get. You'll be helping to reduce your risks from the flu and potential complications, while at the same time helping to find a cure for T1D.

**Get your Walgreens flu shot today to keep well and support JDRF.**

**For more information, visit:**

JDRF.org or Walgreens.com/WayToWell

\*Vaccine subject to availability. State, age, and health condition-related restrictions may apply. See pharmacy for details. Persons with diabetes are not eligible to receive the FluMist® nasal spray flu vaccine. Offer not available to beneficiaries of government health plans, including Medicare and Medicaid.
